Anita M. Robinson, Founder & CEO
U. S. Small Business Administration
2007 Champion for Women in Business

Women's Business Partners offers a menu of valuable services to clients. We assist clients from the start-up stage to expansion, from acquisition to retirement sale and any place in-between. Our business is to enhance your opportunities and success.

Comprehensive Business Consulting Services

Women comprise at least 50% of all start-up businesses today. They are the fastest growing segment of entrepreneurs in the world. Latinas are opening businesses at 6 times the rate of all others! Women's Business Partners assists this emerging economy.

REALIZING YOUR DREAMS

Offering a comprehensive 14 week course, *Vision to Venture*, WBP supports entrepreneurial dreams. Clients develop their business concept and then write the business plan. 46% of the clients come to this course already in business and 20% are in the process of starting-up with the majority of graduates rating the course as excellent!

Many WBP clients go from the *Vision to Venture* with a solid business plan ready to implement and secure funding.

Several WBP clients already in business take what they have learned and create new growth in their business. Graduates take advantage of other WBP services to ensure longevity and profitability.

ACCESSING CAPITAL

Women's Business Partners offers assistance with accessing SBA and other loans. We help our clients prepare the loan package and then go with our clients to the lender. Our clients on average garner greater loan acceptable packages than individuals who do not have this assistance. We help our clients to assess and evaluate how much capital they require, the best source of funds and the best ways to maximize their capital for future profits and growth. From small business loan funds to SBA loans, from conventional lending to venture capital, we help our clients at every step.

SECURING YOUR FUTURE

It isn't enough just to write the business plan and get the loan, we believe it is necessary for them to stay well connected. WBP offers Women's Business Roundtables, mentoring groups, networking opportunities, Brown Bag Dialogs, education and training opportunities, private consultation services as well as connections to many of the region's most accomplished businesswomen. Becoming part of the WBP team means that we help you grow your business and secure a future for you and your community. Contact our office today and find out how you can take your dreams of being in business and turn them into a reality.
